REMOVAL OF LARGE GARBAGE CHUTE ON JEREMIE STREET

Castries, March 1, 2018 - The Castries Constituency Council solicits the full support and co-operation of the general public as it embarks on the permanent removal/demolition of the large garbage chute located on Jeremie street.

The removal of the chute takes place on Friday March 2, 2018 from 11:00am and is essential in light of the health risk, widespread non-compliance, and poor waste management practices.

Thereafter, a clean-up of the area will be conducted, to be followed by a beautification and green-space exercise which forms part of the new Clean City Campaign where over 100 garbage bins will be placed throughout the capital.

According to Mayor Peterson D. Francis, the intervention is expected to effect a visible transformation of the area and Castries in general.

“Removing the chute would assist the public in proper waste disposal practices, as poorly-managed waste particularly in the city is unsightly, damaging to the environment, and poses a health risk to all. We need to change the modus operandi and it no longer can be what we are accustomed to, explained Mayor Francis.”

The Castries Constituency Council encourages all citizens to do what is required in order to keep the city clean.

ENDS.
